The Del Rio Lions Club is sponsoring a barbecue supper on Friday, September 13, the evening when Hondo plays football at Del Rio.

Those who plan to drive over to reach Del Rio between 7 and 1 and be there in time for a barbecue supper. Tickets will be sold at \$1.50 each.

TT

Shiriff Charles Hitzfelder was given a bronze plaque by the Hondo Lions Club last Wednesday in recognition of his services to Medina County.

TT

Holders of season football tickets may pick up their tickets at the City Utility office. People who held season tickets last year have the option of picking up or refusing the same tickets this year. Fans who desire season tickets for the first time this year should call Mrs. Fritz Leininger at the high school. Neither season tickets nor individual tickets may be reserved at the utility office as sales there strictly cash across-the-counter.

TT

The sale of tickets for each game will begin on the Monday morning immediately preceding the game.

TT

A social security representative, Luke Wade, will be in Hondo at the District Courtroom Tuesday Sep. 10, at 9:00 a.m.

TT

The tax assessor-collectors office in the courthouse has been moving from cramped quarters across the hall while that office is being remodeled and repainted. They expect to move "home" one day this week.

TT

Justice of the Peace W. S. Porter will happily move back upstairs when they vacate his quarters.

TT

Hondo Air Base pool closing had not been announced the week but H.R. Burch, who has managed it for several years, says that it will be at least until the middle of September.

TT

Three businesses changed hands Hondo last week. Grady Smith sold his Humble station on Highway 90 to Ralph Gilliam, and the Smiths bought The Mill from Mrs. Millie Eckhart.

TT

Mrs. Eckhart says she will help Smiths for a little while, then she plans to visit her daughters before definitely deciding on her future plans.

Up Column CASTROVILLE SCHOOL BUDGET UP

The proposed budget for the Castroville Rural High School District for the fiscal year 1957-1958 is up over last school year's actual expenditures. The 1956-57 expenditures were \$67,154.68 and the proposed budget calls for \$72,527.00 for this year.

The budget includes: Administration Salaries and Supplies, \$6,648; Instruction costs, \$48,923; Other School Services including food services, \$4,601; Operation of Plant, \$3,680; Maintenance of Plant, \$700; Fixed Charges including insurance, \$225; Capital Outlay including library books, furniture and equipment, \$2600; and Debt Service, \$5150. This last item remains the same as last year and the Capital Outlay has been reduced over last year. All other items were increased in the proposed official budget.

Marriage Cost Has Gone Up

It costs more to marry these days.

Marriage licenses, which formerly cost \$2.00 in Medina County are now \$3.00 according to Henry Schulte, County Clerk, who issues them.

Both the County Clerk and District Clerk are charging higher fees for many services. A bill passed by the last legislature authorizes counties to raise these fees.

\$\$\$\$\$\$

CAR LICENSES COST UPPED

Effective August 22, the cost of car licenses is up approximately ten percent as a result of a law passed by the 55th Texas Legislature. The additional revenue of registration fees on all vehicles is to be used by the state in purchasing right-of-way.

These new fees are now being charged in Medina County.

New T-37 Trainer Visits Hondo AB

A sleek new T-37 twin jet trainer, newest member of the proposed all jet Air Force landed at Hondo Air Base Aug. 28, with the commander of Bainbridge Air Base, Georgia. Bainbridge is currently using the trainers in primary pilot instruction.

Lt. Col. Elmer E. Masters came to HAB for a one day staff meeting to discuss contract operations. During his visit, he took the HAB commander, Lt. Col. John O'Donnell for an orientation ride in the new T-37. Col. O'Donnell says that he was "more than impressed" by the performance of the trainer.

Hondo is not scheduled to convert from the present T-28's to T-37's in the near future, according to a base spokesman, but the change will undoubtedly come before 1959. This step, converting primary training from conventional to jet aircraft, is the first stepping stone in the proposed all jet Air Force, which is possible in early 1960, he said.

From a safety standpoint, the T-37 is basically safer than a T-28 as it has two engines. According to Col. Masters, the new trainer is also faster and easier to handle than the T-28.

"Most students are ready to solo after five hours, but are usually held back until ten or twelve for safety," he said.

Cost of the new T-37 is very little more than the T-28, about \$150,000 but upkeep and maintenance is less, he said.

The Cessna plane travels at about 400 m.p.h. with a cruising altitude of 25,000 feet.

Baptists Look For Preacher

A pastoral committee, which will have the duty of finding a new preacher for the First Baptist Church of Hondo, is to be selected by the church Wednesday, Sept. 11, according to John McAnelly, chairman of the deacons.

McAnelly said that the deacons thought they had secured one until he received a phone call Tuesday night stating that the new man would be unable to fill the pulpit. He said at present they have no prospect.

Meantime, services Sunday, Sept. 8, will be conducted by Bro. J. R. Schuman, assistant pastor of First Baptist Church, San Antonio. He will hold both the morning service, beginning at 11 a.m. and the evening service at 7:45.

The Rev. Harold Cornelison, former pastor, resigned and moved recently to Schertz.

Band Parents To Meet Monday

Representatives from three of the music companies in San Antonio will be on hand Monday evening at 7:30, Sept. 9, to discuss purchases of new instruments for beginning band students. Those parents of students who are commencing instrumental music for the first time are encouraged to meet with the representatives from Southern Music Company, San Antonio Music Company and High School Music Service at the High School Band Hall.

According to E. Joe Lee, Band Director, there is expected to be a large group of students beginning in the band in both public and parochial schools.

Medina Coop Honors Bandera Man

W. W. Cardwell, manager of the Bandera Electric Cooperative, was honored at the statewide meeting of Texas Electric Cooperatives, Inc., in San Antonio August 29-30.

Mr. Cardwell, who is chairman of the Texas Electric Cooperatives, Inc., Legislative Committee, was presented a plaque from the Medina Electric Cooperative with headquarters at Hondo. James Amberson, president of the Medina Co-op's board of directors, made the presentation.

An all-time record number of members 525, attended the meeting.

Mr. Cardwell warned them that cooperatives must avoid complacency.

"We must be active in local affairs, and we must improve our relationships with representatives and senators," he said.

Shepherd Speaks

Riggs Shepherd, manager of the Medina Co-op, reported on national legislative developments. He warned that the cooperatives have been losing most of the battles for fair treatment under the law.

"It is up to everyone to start an educational program on the national, state and local level so that the people can learn the facts," he said.

Most of the meeting was given over to the discussion of these legislative problems of the co-ops. Three legislators addressed the group. They were Senator Henry B. Gonzalez of San Antonio, Senator Charles Herring of Austin, and Representative Alonzo Jamison of Sanger in Denton County.

Ronnie Dugger, editor of the "Texas Observer", also addressed the group.

"Politics stinks like a rotten egg that has been broken open", he said. He advocated passage of a lobby-control bill.

The TEC members did take time out for one high-light of entertainment — a contest to select Miss Rural Electrification of Texas. The winner was Sydney Slack of Perryton in far-north Texas. She will compete early next year for the national title.

Other finalists in the contest were Miss Deaf Smith County EC, Jo Ann Fowlkes; Miss Mid-west EC, Nelda Smith; Miss Lone Wolf EC, Virginia Templeton; Miss Wood County EC, Carol Courtney; Miss Wharton County EC, Ramona Harton; Miss Guadalupe Valley EC, Gretchen Niebuhr; and Miss Hall County EC, June Ross.

Miss Courtney, Quitman, was named alternate for the national contest.

The rural electric members expressed their definite dissatisfaction with the so-called "REA bill" which was passed by the Texas Legislature this spring. They discussed plans for seeking more favorable legislation at the next session of the legislature.

Clayton Instructs At Randolph

Sgt. Daniel L. Clayton, son-in-law of Mr. and Mrs. Alvin Mumme, Hondo has been assigned to the 3513th Combat Crew Training Squadron at Randolph AFB as an instructor flight engineer.

Sergeant Clayton also instructs in the KC-97 flight simulators and conducts briefings and critiques, other than on the KC-97. He has flown as flight engineer on the B-29, B-50 and C-124, having accumulated approximately 4,000 hours of flying time. He has also flown as a crew chief on the B-26 and C-54.

Medina County voted Wednesday against the issue of \$300,000 in bonds to build a hospital.

All precincts had reported to the County Clerks office by Thursday morning and the returns in showed a total of 1,586 against, 1,081 for.

The county is approximately 36 miles long from north to south and a line could almost be drawn in separating the east from the west on the vote. The east 12 miles voted "no", the west 28 miles voted "yes".

The east vote was 1,333 against, 146 for.

PUH-LEEZE PICK-UP TICKETS

Superintendent of Schools J.G. Barry says that Hondo football fans are mightily slow picking up their season tickets at the City Utility office this year.

The first game, with Jourdan, is Friday night and many people who have had season tickets in years past have failed to pick them up.

In this connection, he says that tickets for the Del Rio game in Del Rio on Friday, the 13th, will go on sale at the city office Monday, Sept. 9 and persons planning to attend may purchase them at that time.

In the west, which includes all three Hondo boxes plus Quihi, Dunlay, Verdina, D'Hanis, Yancey and Upper Hondo, the vote was 935 for, 253 against. The possibility of forming a hospital district with this area is now being considered, but plans would need to be changed and another election held in this area only before a hospital could be constructed in that section.

Had the election passed, it would have been at least the middle of 1959 before a new hospital could have been built. Now, it is anybody's guess as to when one could be in operation. The privately owned Medina Hospital in Hondo is for sale and the owners hope to retire as soon as they can find a buyer.

B. L. Robinson Buried Thursday

Funeral services were held Thursday morning, Sept. 5 for B. L. Robinson, 86, who died Tuesday, Sept. 3.

Mr. Robinson had managed a filling station in Hondo before retiring several years ago.

The Rev. Harold Ehlinger of St. John's Church officiated in the services held at Harger Funeral Home. Interment was in St. John's Cemetery.

## PERSONAL APPEARANCE

BY JERRY JUNE BERGER

Hundreds of little Hondons were back at school desks Tuesday morning, and a few first graders, entering a strange new world, were a little reluctant about seeing their mothers replaced for six hours a day. But most of them took it in stride and there were surprisingly few tears among the approximately 150 beginners.

Three sets of twins were among those starting school in this area. LAURA and LINDA MOSS are at Meyer Elementary, PETER and PAUL MILLER are at St. John's School and CARMIN and NORMAN LUTZ began their school careers in D'Hanis.

Starting twins to school is nothing new for the parents of CARMIN and NORMAN, the ARTHUR LUTZs. They also have another set a few years older.

Students enrolling over at Lacy Elementary registered in one room but were frequently moved to another classroom when students were doled out to teachers by way of registration cards. NELL (MRS. FRANCIS) RICHTER commented that several fifth graders went into the room of the teacher of their choice only to find themselves moved later. But she consoled some by saying that if they had wound up in her room they might be wishing they had picked a different teacher by Christmas time!

In Hondo, neither teachers nor students have a choice of the pupils or instructors they think they would like.

Students in a given grade are registered, the cards are alphabetized and are then sorted out into as many stacks of cards as there are teachers for the grade. Favoritism is completely avoided in this way.

The advent of school usually coincides with the opening of hunting season too and many bird hunters were out manning their guns on Labor Day.

From all we've heard, birds are plentiful this year.

First time hunter GREGORY MEYER, who is almost 11, went out with his dad, JOHN HENRY MEYER, who had been a little reluctant to take him along, and showed his elders a thing or two. Out of five shots, he downed four birds and three of these were on the wing.

PRESTON GAINES was among the Labor Day hunters. His little son, PRESSY, didn't go along, but insisted on wearing his heavy "hunting" pants all day long even so. His mother says some cold day next January, he'll probably insist on wearing shorts.

We mistakenly aged MRS. J.W. CROW in our column last week. We said she was 89. Actually she is only 84, and she says at age 89 she is quite sure she won't be as eager to go on a camping trip in New Mexico.

We wonder if we will want to go camping at 84.

PA

Have you been bothered with crickets at your house? Over in Brenham the little creatures became so thick that the City Council passed an ordinance forbidding any more of them from coming into town, and the mayor there declares he hasn't seen a new one come in since the action was taken.

We noticed one in the Anvil Herald office this morning. It certainly did not take him long to figure out what to do here, as he spent several minutes just running around in circles. That's how we spend many Tuesdays.

### BEGINNING CHAPTER THREE

"I felt no misgivings regarding my future prospects when I left home in September, 1862, with the determination to seek my fortune in the world that I believed was waiting for me somewhere. I was young, healthy, and vigorous, with a mind strengthened by independent thoughts that had sustained me in many responsible positions and I felt that I could earn a competency by my own exertions. With such confidence in myself, a good horse, and few dollars in my pocket, I parted from the loved ones at home with no definite idea with reference to the date of my return.

"My route on horse-back to Eagle Pass took me through the town of D'Hanis, where I was joined by Joe Carle, the father of Carle Bros., who now conduct a mercantile establishment on West Commerce Street in San Antonio. He was a merchant in D'Hanis and we had previously arranged to go to Mexico together, where he had business to attend to, but as he was engaged to his present wife he returned home after an absence of a few weeks. In the meantime I became acquainted with Billy Egg, a young man who had fled from east Texas to avoid serving in the army. He was stopping with his brother, Thomas Egg, a married man, who lived in Piedras Negras, and I secured board with the family.

"A few days afterwards I, and two other men, accompanied Thomas Egg thirty miles up the Rio Grande to a bottom where there was a growth of willow trees which he proposed to cut into lengths suitable for rafters, called vigies in Spanish. They were used by the Mexicans as a sub-structure for the flat roofs of their houses, which were built of adobe or sundried brick, 4x10x18 inches, made of mud. The rafters most in demand were twenty-five feet long with a diameter of twelve inches at the butt and six inches at the small end. These could be readily sold in Piedras Negras at one dollar and a half each, on account of their scarcity because of the difficulty of hauling them.

"When contracting a roof for a house the Mexicans placed their rafters on top of the adobe walls, about two feet apart, and the entire space was then closely covered over with split boards, about two feet long, that reached from one rafter to the next. A mortar of mud, made from a particular kind of dirt, was thoroughly mixed with dry grass until it could be handled. This was spread in a continuous layer about four inches thick near the eaves and much thicker in the middle, so as to give a slope to the roof after becoming thoroughly dry a second layer of about the same thickness was put on, and it was followed by a third when ready to receive it. The finishing source was a layer of concrete about four inches thick, composed of earth and lime, which only the Mexicans know how to mix and the roof with its slope from the center was made smooth by dragging over it with the edge of a board. Such roofs last a long time, and I remember one that was shown me in Paras, Mexico, which had received no repairs in thirty years, that was then in perfect condition.

"Our party cut about one hundred and eighty of such rafters, and as we had planned to secure them in a raft and float them down the river, we carried them to the nearest point on our shoulders, a distance of three hundred yards. When we were about ready to start our raft the Mexican authorities interfered, under the im-

pression that I could be used for smuggling purposes, and they prohibited its completion. We then changed our plans, and were compelled to employ Mexican cars to haul our rafters to Piedras Negras, which was expensive, consequently we realized only a small sum above our outlay.

"I was next employed under a contract to make two dozen American ox-yokes at one dollar and

a half apiece, for Semon de la Penia, who had a wagon-shop in Piedras Negras. He had removed recently from San Antonio, to which place the family afterwards returned. I worked in his shop and used his tools until I finished the yokes, and perhaps they were the first that had ever been made in that town.

"Soon after completing my job, in November, 1862, I visited Mat-

amoros on horseback, in company with Thomas B. McManus, John Heinemann and Billy Egg. We traveled down the Mexican side of the Rio Grande a distance of four hundred miles. My only object in going was to see the country, but my trip was not satisfactory, because after spending all my money I was compelled to work in a cotton yard, and after a short stay I was ready to return to

Piedras Negras, where I left the means, but fortunately I felt with a theatrical troop, and secured employment with them as door-keeper. We left Matamoros in December, 1862, and on our way up the river the company gave performances at Camargo, Renosa, Renosa San Antonio, Ma, Mier, Laredo, and finally Piedras Negras, where I left the

Let Us Hope We Will Have Room For Honest

## Differences Of Opinion

This section of the paper, which includes the editorial page, is printed on Tuesday and so we are writing this one before we know the outcome of the hospital bond election.

From the beginning of time individuals have disagreed with one another. Sometimes this happens among members of a family, sometimes among close friends. More often it happens among citizens of a community, state or nation.

One of the most precious possessions of America is its freedom of expression — the right to think and write and speak as each individual wishes. And there should be a spirit of fair play, of give and take, in all of us. There should be a measure of respect for the opinion of others even though it differs widely from what we believe. We should be forever thankful that in our land every man has a right to his own opinion.

Both "sides" will be expressing themselves on the bond election Wednesday at the polls, but let us hope that no ill feelings exist on Thursday. A man need not be crazy just because he thinks and acts differently than we would have him act.

Perhaps next time we will be in agreement and can work together, but let us always make room for honest differences of opinion.

## REMEMBER WHEN

### 10 YEARS AGO

Following a sorry spectacle Monday when dozens of cars sped after the HVPD in response to a truck fire on the highway resulting in snarling of traffic, Deputy Charles Hitzfelder called attention this week to the traffic regulations in the new traffic code effective Friday of this week. Section 100 of the code states "The Driver of any vehicle other than one on official business shall not follow any fire apparatus traveling in response to a fire alarm closer than 500 feet or drive into or park such vehicle within the block where the fire apparatus has stopped to answer a fire alarm."

The Natalia School has added more than 5,000 square feet of floor space through the purchase of surplus buildings from the Hondo Army Air Field.

### 20 YEARS AGO

As we are hurrying to press Thursday evening, news comes from Judge Arthur H. Rothe that all details have been agreeably and finally worked out between the railroad company and the county court relative to the widening of highway 90. The distance of five blocks from the center of town.

Commissioner Alfred A. Bader informs us that the WPA project of paving in Hondo is only temporarily delayed on account of a shortage of WPA labor. As soon as the busy season of harvesting is over it is expected the work will be resumed and the paving pushed to completion.

John R. Crouch, a member of the Fort Worth YMCA swimming team, took part in the State TAAF tournament in Austin Monday. The Ft. Worth swimmers captured the meet with 95 points, the champions being Bob Tarleton, back stroke, and "Hondo" Crouch, free style. The two boys left Tuesday by plane for Chicago, Ill., to enter the National AAU meet. The boys will be the first Texans ever to match strokes with the country's best in a national AAU affair.

### 30 YEARS AGO

According to Mr. John P. Lip-pold, Special agent, bureau of the census, there were ginned in Medina County 1,045 bales from the crop of 1927 prior to August 16th, as compared with 373 bales up to a like date in 1926.

The Ladies of the St. John's Parish held open house at the new Catholic school, Monday afternoon from four to six.

For the month of August the total rainfall was .17 inches; since January 1st, 15.54 inches. Highest temperature was on the 13th, 108 degrees and lowest on the 19th, 65 degrees.

There were two rainy days and 27 clear with 4 days partly clouded and one clouded.

### 40 YEARS AGO

Castroville — Messrs William and John Rihn invited us to visit their farm one day last week, and there we were convinced what could be done by irrigation. Though the Rihns had just installed their plant in July, and their crops had already suffered considerably from the drought, they now have a fine stand of Sorghum and milo maize, some mature, ready to cut and some waist high. Their corn crop is fair.

One of the worst wrecks that has occurred on the Southern Pacific for a long time occurred at 6:55 Tuesday morning when the Sunset Limited, the fast California train, was wrecked between LaCoste and Noonan. Just what caused the wreck has not been stated. The entire train except the engine left the track and cars thrown helter-skelter along the right-of-way, the diner catching fire and being completely destroyed. That there was not an appalling loss of life is a tribute to the steel cars; had the old wooden coaches been in use a frightful casualty list would have been inevitable. As it was, no one was killed, and of nineteen injured only one or two were critically hurt. Traffic was pretty effectively blocked for most of the day.

### 50 YEARS AGO

All residence water rents in Hondo have been placed at \$2 flat per month, so we are informed by Isaac Wilson, secretary to the Deep Well Co. This means \$24 a year to every home in town, without any allowance for sprinkling, watering stock, gardens, shrubbery, etc., and is 10 per cent on \$240 annually and is a tax that we fear is going to retard the development of our town.

Heath Bros. have one of the best equipped and most modern gin plants to be found in the country anywhere. Everything is modern and complete and the whole thing is lighted up by their own electric light attachment operated in their own plant. The boys have every prospect of success with their enterprise.

**YANCEY NEWS**  
By Mrs. Harrison Wilson

A nice crowd attended the Yancey Home Demonstration Club's "family night" picnic last Monday night at the Yancey School.

Tables were set up near the lunch room and a supper of fried chicken, salads, cakes and pies was served to Mrs. William A. Moore and boys, M&M Fielding Wiemers and boys, M&M E. T. Wiemers and Gene, Miss Dora Mae Wilson, M&M Karl Faseler and boys, M&M C. A. Muennink and Coy, M&M B. D. Bomba and grandsons, and M&M Harrison Wilson. Guests were Mrs. W. S. Garnett, Mrs. Jess Duncan, Mrs. Charles Heilgman and Judge and Mrs. Arthur Rothe. Our club family night would not be complete without the Rothes as they have attended our family parties since we were organized.

Miss Dora Mae Wilson and the Jim Ambersons spent Saturday and Sunday in Eagle Pass.

M&M W. A. Moore and family had a barbecue Friday night for the teachers and their families, followed by a faculty meeting.

Those attending were M&M Rudolph Duncan, M&M Milton Hae-glin, M&M Russell Franklin, M&M Joe Connel and family, M&M Dub Allen and family, M&M C. A. Muennink and Mrs. Howard Gilbert and daughter, Mrs. Pete Cakin and family and Mrs. Harney Gilbert of California.

The Yancey school opened as usual on Labor Day with General Assembly at 10 a.m. followed by a P.T.A. Meeting.

The picnic lunch was served in the school lunch room. Registration was in the afternoon.

Weekend guests of Mrs. L. F. Faseler were M&M Charles Weg-nen and family of Austin and M&M Harry Meadows and family of SA.

Visiting the Tom Duderstadts last week were Mrs. Will Mc Clougherty of SA, her son Earl, her daughter Ruth and her grandchildren. The Vaughans of Bander-a also visited the Duderstadts.

## Jennings Reports From African Hunting Ground

Ray Jennings has sent home a letter telling of his African hunting experiences, and lists the kill. In his words, just as he wrote home to Mrs. Jennings, here is the story.

Dear Mom:

We left Nairobi on the 14th, arrived at our camp site in the Masia area, 150 miles same day. We are living it up.....china, silverware and linens. Hot bath every night and the laundry is done everyday. Shoes and boots shined. Hot tea served in bed every morning before breakfast. I usually pass this up — too much for a country boy.....just seems too silly. Well, here is the good and important news that you and all want to hear. So far I have gotten the following: 1 lion, 1 Grants gazelle, 2 Thompsons gazelles, 2 hyenas, 2 Wildebeeste, and 2 Impala.

All this has happened the first four days. Could have killed zebra but I don't care to kill one. So far I am the only one to get a lion. Herb and Mrs. are trying and probably will get theirs..... we are hoping. Will break camp in a few days for buffalo and rhino country — Sure hope I am lucky. It takes luck with hunting for the big 5. It's a lot different from what one thinks. There is a world of game, you can't believe it. You are allowed to shoot several of some species and some only one of. My reason for shooting as many Thompson's gazelles is for larger horns. I don't see any fun.....just killing.....tho it's here. All animals killed are consumed by camp and it takes plenty. We have 23 laborers, porters, personal boys, trackers, gun bearers, skimmers, cooks, etc. so you can see it takes lots of meat to feed the crew. Besides, we feed a lot of the Masia African natives.....only game meat. The menu for dinner tonight was corn on the cob, game roast, potatoes, pudding, all kinds of fresh fruit such as bananas, oranges, apples, fresh pineapple, avocados, Coca Cola, orange, pineapple, tomato juices, etc. I get plum disgusted with such put on.....old country boy can't take it. I like it on the coarse side. Think it's more fun. I am not following the to-do style. I'm just being natural and having a darn good time, giving no one any trouble and no one is giving me any. Gibsons just came in and no lion. Hope them luck in the morning.

August 20

Just returned from a hunt this a.m. Was looking for Eland, failed to find one. Maybe I'll see one this afternoon, but did find lion and rhino tracks (tho this is

not rhino country) but they do stay in this area.

Will move this camp in a few days.....I think to buffalo and rhino country. The elephant will be the last camp.

The temperature is around 70 at nights and mornings (real fresh) and mid-day around the 80's. It's never bad. The flies are so-so, not too bad at all, but bad enough. The mosquitoes I haven't felt one yet have seen only very few and not even a hum tho we have nets to sleep under just in case.

August 21  
I'm staying in camp this a.m. because I've got most of the game I want. Have all except Dikdik and Eland and zebra..... the latter I don't feel like shooting tho the skins are very pretty. I'll try this afternoon for Eland. We find Eland in herds from a dozen to a hundred but all seem to be cows. Found one bunch with one bull and I missed my shot at about 350 yards. You are strictly prohibited from shooting female animals, and it will cost you your license and probably a fine if your judgment is bad..... excuses not accepted. I think we should enforce this game law at home. I think it flat stinks to shoot female game.

Just returned from an afternoon hunt, found another herd of Eland, and missed again at about 350 yards.....that's as close as we could get.

We are breaking camp tomorrow a.m. and taking out for the buffalo and rhino area about 40 miles. Wish me luck because I want that gentleman bad and he is bad.

August 22

Just arrived 4:30 p.m. at our second camp in the Loita mountains, elevation about 7000 feet, 2000 ft. higher than our first camp and about 40 miles distance. Drove to an area about 12 miles back but no tracks at the water so we just had coffee and sandwiches and drove to this camp site. It is supposed to be real cool to cold mornings and nights. It was that at the first camp, this much colder.

August 23

Returned from the morning hunt, saw my first buffalo, slipped to within 40 ft. and was squeezing the trigger when my hunter interrupted and said it's horns had been broken. He just did stop me in time, so I'll try again this afternoon. No luck on buffalo on the afternoon hunt. Will try tomorrow.

August 24

Stalked buffalo in the dense dense brush and bottom land for 5 hours. Finally had to give it up. He r b got his buffalo and rhino today. The buffalo had a 46 inch spread.....it was a fine one. I shot the head off of a Dik-dik — that's the smallest animal (horned) in Africa so I'll try for another. I saw 6 Dik-diks this afternoon. I met some people on top of a hill from Dallas (on Safari). Was good to see someone from home. What a place to meet people, from Dallas, in the middle of Africa.

August 25

Mom, I got my rhino this a.m. Can't write all about it, but it was close and exciting. I'm alive and the rhino is dead. Was lots of fun when it was all over. Saw a herd of buffalo, but they were all cows. Trying for these tomorrow.

August 26

Got him! A big buffalo at 25 steps — that's close — at 8:45 a.m. this morning — 45 inch spread, considered good. It's really rough hunting rhino and buffalo. We will make camp no. 3 on or about the 28th — be there for few days and then to elephant country. There are a few elephants here — heard one beller yesterday within 1/2 mile. They are so few, you scarcely see one.

I'll mail this first chance, but no way of getting it out. I'm just adding the news and notes and will mail first chance I get. 27th arrived in Nairobi about 2 p.m. Left camp no. 2 7:30 a.m. this date about 160 miles. We leave in the morning for elephant country. Will go mail this now.

**SINGULAR HONOR** — Manager W. W. Cardwell of Bandera Electric Co-op (standing right) accepts bronze plaque from President Jim Amberson of Medina Electric Co-op, Hondo, marking Cardwell's "outstanding service to Texas electric co-ops" as their statewide legislative chairman during the past year. This is the first time such an award has been made. Seated (foreground) is State Representative Alonzo W. Jamison, Jr., of Denton County who spoke at the Seventeenth Annual Membership Meeting of Texas Electric Cooperatives, Inc., in San Antonio August 29-30 when the plaque was presented to Cardwell.

Outdoors business is picking up rapidly right now. When the weather begins to get a little cooler conditions will be exactly right for bass. The hunters have already started on doves, with open season on other game coming along soon.

Let's talk about fishing first. Although a lot of fishermen take home full strings in Summer, it's pretty generally agreed that Fall is a better time, for several reasons.

In cooler weather, fish are inclined to move around more. That takes more energy, and the fish therefore are prompted to do more feeding.

Thus, in Fall, the bass are hungry and their normal sources of food are apt to be somewhat scanty. So they look with favor on your minnow or plug.

Old timers in the bass fishing game have started already, as a matter of fact. Their topwater lures dusted off and hooks sharpened, they may be seen at late light these mornings and late afternoons, moving along slowly in their boats, tossing plugs or flies along the edges of weed bed, under willows, close to stumps and rocks.

Such a procedure is calculated to pay off, especially when that change in weather comes. Want advice? Try just before and just after the first other.

**Those Old Cats**

Catfishing has been the best bet for most anglers during the Summer, and in many lakes and streams, the trotline operators have been highly successful. Catfishing is good in Texas the year round. Here's a fish that responds readily to almost any bait, offers excellent sport to the still fisherman, and affords a tasty dish for the table.

A word about carp. This fish was imported from Europe many years ago. There, it was and is considered a delicacy. The n e n handily in most Texas lakes and streams, the carp is a valiant fighter, and he comes in king sizes. Rig your line with a nylon leader, and tie your sinker so the fish won't feel tension when he samples the dough bait. Let him run with it and then strike—hard.

Now about coastal fishing — the outlook is excellent. Back in 1951 there was a freeze that killed many game fish. But now, the young have had time to mature.

Indication of good salt water fishing came in the Summer, when many anglers returned with record catches of trout. In numbers and in size they were better than they had been for years.

Nine-pound trout were captured. A pair of Austin anglers, Steve Eichelberger and Eldon Powell, took 229 s.p.e.s., weighing 394 pounds, in 3 1/2 hours from the intercoastal canal near Austwell. The fish took shrimp as long as the supply lasted, then they hit spoons.

That was the biggest catch ever made by two fishermen, as far as the boatman knew.

Come Fall, there will be more catches of trout, and the redfish will start striking. When it gets a little cooler, the sheephead will be active.

## 18 For Football At D'Hanis High

D'HANIS — Football practice at D'Hanis High School got underway on Monday, August 26, with 18 boys reporting for training, and Coach Monroe Carter, with the assistance of Olen Mitchell, began putting them into shape.

M&M Alex Jungman, Jr. and family of SA spent Sunday in the Alex Jungman, Sr. home.

Mrs. Bernard Fitzsimon of Castrovilla was here on business Saturday, and also visited briefly in the Jungman home.

L.J. Harvey and family of Kingsville spent the holidays with the Alfred Kellers.

M&M Leonard Adam, of Bishop were up to visit his parents, M&M Joe Adams and family over the weekend.

In the closing days of the session, one important fact is being overlooked. It is that Congress has succeeded in the economy drive—succeeded to the tune of at least \$5,500,000,000.

The President opened the year by presenting Congress with the largest peacetime budget in history — \$71,800,000,000. The country was staggered. Eyes turned to see what would happen.

Part of the budget couldn't be

### Seco Philosopher Wants

## To Qualify For New Type Loan On The Grounds He's Weak Too

Editor's note: The Seco Philosopher on his Johnson grass farm may be showing a lack of grasp of the international situation, his letter this week indicates.

Dear editor:  
After one of the greatest surprises of my life yesterday — I found a copy of a newspaper on my front porch, right beside my chair where I could pick it up without moving — I settled down to reading and hadn't gone far when I ran across an article that made me sit up straight and think.

According to it, the United States has figured out a new way to attack the agricultural surplus problem.

Under this plan, for example, Washington is going to lend Poland 95 million dollars with the provision that she has to use the money to buy farm surpluses from us.

Also, because Poland needs help in strengthening herself against Russia, part of the loan will be interest free.

Now this opens up a brand new method of dealing with surpluses, and I wish you'd use your influence if you haven't misplaced it to swing a deal like that for me.

That is, I don't know exactly off hand what I'd do with a lot of farm surplus, but if the government will lend me some money interest free, I'll be glad to see what I can figure out. We've all got to pull together on this thing. And while I don't need strengthening against Russia, I do need strengthening against a lot of creditors, and I don't see why Washington should quibble over this small point. If a man or a country is weak, they both need strengthening, it doesn't matter what against.

Also, it seems to me that the idea ought to have even wider use. For example, the agricultural surplus isn't the only surplus we've got in this country. I know some merchants in town who have a surplus of drygoods on their shelves. I think one or two car dealers have some cars they'd like to dispose of, and I've never seen

supermarket that didn't seem to have a surplus of groceries. If Washington will furnish me the money interest free, I'll do my part — I'll prove I'm weak and need strengthening, and both together we'll eat into this surplus that's bothering this country. Please let Washington know I'm ready to sign the loan papers. Yours faithfully, J.A.

## Second Weather Instrument Found In County

Another radio-sonde weather instrument was found in Medina county last week by Bruno A. Schwaers. He picked up one of the little weather reporting automatic radio sets on his ranch 15 miles northeast of Hondo Wednesday morning.

The set was released from the International Airport in San Antonio Aug. 20, and had apparently traveled up to about 16 miles above the earth before the balloon burst and let the radio set down on a parachute. Schwaers mailed the set back to the government weather bureau Wednesday.

## Kindergarten Petition Turned Down

The Hondo School Board of Trustees recently turned down a petition from the American G. I. Forum asking for a kindergarten for pre-school age children of Mexican extraction.

According to a letter from the Board to the Forum's chairman, Oswald Nira, the question of a kindergarten would incur considerable expense to local taxpayers since none of the money for its operation could come from the state. On the basis of the 1956-57 enrollment in the first grade, at least six teachers would be needed to staff a kindergarten for five year olds. The approximate annual salary cost for such an operation would be \$21,600 which would mean a tax raise of about 30 cents for the taxpayers of the district. Since the district has no tax for kindergarten purposes, an election would have to be called they said.

The Board continued that if the district had the funds and the desire to operate such a kindergarten, it would be difficult if not impossible to do so, as only 12 teachers in Texas have been issued certificates required by the state for kindergarten teachers.

## Hondo FFA Chapter Meets, Discusses Show

Hondo's FFA chapter held its monthly meeting last Monday with 24 members and 3 freshman Saathoff extended a welcome to the freshman boys and invited them to join the chapter.

Charles Zuberbueller gave a report on the range study camp he attended last week in Junction and George Koch and Howard Saathoff gave a report on the state FFA convention in Fort Worth July 17-19.

Advisor John McAnelly discussed feeder hog and feeder lambs for the county stock show and warned the boys that lambs for the fine wool class must be Merion or Ramboulette or the cross of these two breeds. He also said that boys who plan to feed hogs for show should locate their pigs at once.

The chapter bronze emblem rating was shown by McAnelly to the boys. This award was issued to the Hondo chapter by the state association of FFA for the local program of work completed during the 1956-1957 school year. There are two higher awards made by the state for outstanding FFA programs. The chapter rating score is determined 75 per cent from individual FFA activities and 25 per cent from the local chapter activities.

## State Capitol NEWS

### AUSTIN

Students are trooping back to school for another year of reading, writing and 'rithmetic.

But the knottiest school problems are not in the math books.

For parents the problem is the thing. Tuition at state colleges has doubled. Even the parents of first graders are wincing as they add up the "outfitting" bills. Cost of blue jeans, plus crayons, plus lunch money, takes an ever growing bite out of most family budgets. Many mothers will go back to work this fall to help balance the income-outgo equation.

On a bigger scale Texas school agencies and administrators have the problem of the "old woman who lived in the shoe." They have so many children they don't know what to do. Their problem of trying to balance school facilities against school needs is complicated by the fact that one side of the equation — needs — keeps on growing.

Some 1,885,640 children are expected to enroll this month. That is 70,000 more than last fall. To keep the education mills grinding, Texans will spend an estimated \$26,000,000 this year. It's twice as much as was spent eight years ago. Local districts are pouring some \$40,000,000 into new buildings this year.

### SHOWDOWN ON WATER

It's now or never for Texans to solve their water problems in an orderly manner.

This, in effect, is the attitude of Gov. Price Daniel as he pushes the wheels in motion for a "big push" this fall.

First attack will be by a 100-person statewide water planning committee appointed by the governor. It is to meet in Austin beginning Sept. 9 to develop planning and leadership for a master plan for water conservation and flood control over the state. Committee members include civic leaders and persons interested in and acquainted with water problems from all parts of the state. They'll also be asked to help plan future water legislation and develop support for the proposed would provide a \$100,000,000 bond issue for water projects.

Second phase of the governor's plan is the special legislative session to pass needed additional laws. Target date for the session still is October, the governor has indicated.

Two pieces of water legislation are proposed by Governor Daniel: (1) Creation of a state water planning division to draw up a master plan and (2) a law enabling the state to purchase water storage space in federal reservoirs (a measure which failed last session).

Planning division probably would cost from \$500,000 to \$1,000,000 says Daniel. This can be obtained, he says, from special funds appropriated, but not used, for other purposes.

If Texas doesn't face the responsibility for its water planning itself, declared the governor, the federal government will take over with a "take it or leave it" plan.

## LETTER TO THE EDITOR

DEAR SIR:

Natalia Parent-Teacher Association is headed for oblivion.

A Workers council was called for the entire community to accept responsibilities in the interest of the welfare of all children. No one showed up so it is the conclusion of the elected officers and the few chairmen who were present that the community does not want a Parent-Teacher Association as set out by the State and National aims and purposes. Without chairmen to perform duties and without the cooperation of all parents and teachers such an association is non-existent.

The program chairman presented an outline for the entire year. The recreational chairman has planned an interesting break for each meeting. The school authorities have been consulted and they approve plans as are suggested by the Texas Congress of Parent-Teachers. There was a School of Instruction held on Aug. 13 and attended by a few chairmen and the officers. Chairmen who in May accepted their chairmanships have cancelled. One person or even five or six can not perform all duties of an association that has the interest of six hundred children at heart.

become an associate justice of the State Supreme Court on Sept. 30. Greenhill was appointed by the governor to replace Judge Few Brewster, who is resigning because of ill health. A former Houstonian, Greenhill, 43, will be the youngest judge on the high court.

He is a former assistant attorney general to Daniel and was the governor's campaign manager in '56. Daniel termed him "one of Texas' ablest lawyers."

### SHORT SNORTS

Texas ranked seventh in the nation last year on per capita income, reports the Bureau of the Census. Texas per capita income, \$1,686. National average, \$1,940.

Dr. N. Jay Rogers of Beaumont and Dr. Ira E. Woods of Grapevine have been re-appointed by the Governor for six-year terms on the State Board of Optometry.

Another motor vehicle inspection period has arrived. You have until next April 15 to get your new sticker, however. But early inspections are urged by the Department of Public Safety.

Texas draft calls continue to shrink. October quota is 338. It compares with 387 for September and 547 for August. Inductees will be taken from age 22 and over, except for delinquents and volunteers.

Texas has 308 new nurses. They passed the recent statewide examination for vocational nursing licenses. Two schools have been newly accredited to teach vocational nursing — Marcom Hospital of Vocational Nursing at Ladonia and Permian General Hospital School of Vocational Nursing at Andrews.

Jobs as examiners with the State Board of Insurance now are open. They are additional posts created by the last legislature. Requirements include a college degree with both courses and experience in insurance accounting.

## County Has Another Well

Medina County has another producing oil well in the Chicon Lake Field following completion of the G.O. Etheredge No. 5-A Joseph Lamor earlier this month.

The well was drilled to a total depth of 460 feet, with the pay topped at 443 feet. Initial tests showed seven barrels of 21 gravity oil daily from the Navarro.

The new producer is located about five miles northwest of Lytle in the Rebecca Latham Survey No. 41, on a 89.44-acre lease. It is 310 feet southwest of the No. 1 Lamor and 550 feet southeast of the No. 1 Lamor.

# LaCoste Takes Highway 90 Flag

## D'Hanis Drops 5-1 Decision Sunday

By John C. Biediger Jr.

LACOSTE —The LaCoste Athletics behind the stout 8-hit pitching of Clinton Bippert nailed down the 1957 highway 90 league flag here Sunday by downing their perennial playoff foes, the D'Hanis Pirates 5-1.

Timely hitting provided the Athletics runs as Bippert himself drove home the initial LaCoste

score in the 4th frame when he laced a two-bagger down the left-field line, scoring A. Keller. Big Sylvan Mangold, Athletic left fielder, added a little margin in the fifth when he belted a two-run homer, his second in the series.

Bippert scored the fourth LaCoste run in the 6th when he drew a base on balls, advanced to second on a throwing error by Pirate catcher B. Koch, and was moved the rest of the route home by perfect sacrifice hits by C. Keller and L. Keller. Final LaCoste score came in the seventh on a double by F. Bohl and a single by A. Keller.

Bippert encountered serious Pirate threats in the 4th and 8th frames but managed to leave all but one Pirate stranded as he cut down two in each stanza by strikeouts. In all he registered eleven strikeouts.

Tom Finger, Pirate manager, beat out an infield grounder for a base hit with one out in the eighth and pinch runner Gene Koch later scored the lone Pirate run on a single by Ney, after advancing to third as Horace Langfield walked and Bippert uncorked a wild pitch.

The victory gave the Athletics the championship for the first time since they beat the Pirates in 1954.

Summary: Runs batted in: Ney, L. Keller, Mangold 2, A. Keller, C. Bippert; Sacrifice Hits: C. Keller, L. Keller 2, Manthis; Two-Base Hits: B. Koch, F. Keller, F. Bohl, C. Bippert; Three Base Hits: F. Keller; Home Runs: Mangold; Strike Out: By Wolff, 3, C. Bippert, 11; Base on Balls, Wolff, 4; Bippert 3; Hits by Pitched Ball: Wolff 1, (Lagleder), C. Bippert 1, (B. Koch); Wild Pitches: C. Bippert 2; Winning Pitcher: C. Bippert; Losing Pitcher: H. Wolff.

## Guest Golfers Win In Thursday Play

Members of the Hondo Womens Golf Association entertained guest golfers Thursday, Aug. 22 and two of the guests were among the winners in the days play.

Winning were Kathy Taylor, a guest, Ann Jones, and Colleen O'Donnell, also a guest.

Other visitors included Kathy Dye, Sadie Kilmer, Olga Jennings, Ruth Grollmund, Nancy Jordan, Greta Plender, Line Grun, and Carlotta Barnhill.

A social gathering at the golf shop was held before actual play began.

## Two St. Louis Teachers Not Named

The list of teachers from St. Louis High School, in Castroville, included in Aug. 23 paper failed to include the names of Mrs. Loretta Browning, who will again teach fourth grade, and Mrs. Kathryn Streetman, who will again teach the second grade. Both teachers live in Hondo and commute daily.

A sister of the school said, "The Sisters and parents are very fortunate in again obtaining the services of these two interested and efficient teachers."

## Owls Open Up Friday Night

Hondo High School's Owls will open the 1957 football season at home Friday night under the lights when they take on the Jourdanton High School eleven.

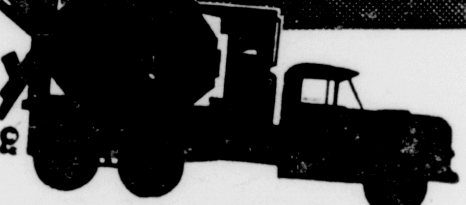

Coach Buck Carver is making no promises this year, but most Hondo fans have heard the blues sung before, and expect to see some pretty fair football by the end of the season.

Game time is at 8 p.m.

## Mangold Shatters Elbow

By Mrs. Louis Stein

Bobby Mangold, son of Mr. and Mrs. E. L. Mangold was injured when a dairy truck he was driving was involved in an accident, nine miles north of Raymondville.

He was taken to the Raymondville memorial hospital where he was found to have his left arm broken in two places, his elbow shattered and the whole arm mangled. Mrs. Mangold went immediately, but returned Saturday stating that Bobby is doing as well as can be expected, and will be flown home Sunday. If further hospitalization is needed he will be treated at Santa Rosa.
